## **SPECIFICATIONS FOR RESIDENTIAL REHABILITATION PROJECT(S)**

### **GENERAL:**

The City of Birmingham is seeking bids for the rehabilitation of houses under the critical repair grant program (CRGP) funded by the Federal Government. Each project (address) is funded in an amount not to exceed \$7,500.00 total. Work write-ups have been structured based on reasonable estimates to ensure the allowable grant amount is not exceeded. **NO AWARD WILL BE MADE FOR AN AMOUNT GREATER THAN \$7,500.00/PROJECT(address).** Award will be made to the lowest priced responsive, responsible bidder for each individual project (address).

By definition the repairs are critical to maintain the safety and stability of the structures. Bidders may bid on one or all projects (addresses); however bidder must be able to complete all work awarded to him/her in no more than 90 calendar days (all time is to be considered calendar days unless otherwise stated) from receipt of purchase order (s) or 94 calendar days from date purchase order was printed, whichever is the longer period of time. Each bidder shall state on the bid form the number of days he will require to complete the rehabilitation of each specific house bid. Based on this information, the City will not award any one contractor more houses than can be completed within a cumulative total of 90 calendar days. **EX:** Low bidder states 30 days/house (address) completion time for all houses bid. Since the maximum allowable total time for completion for the houses awarded to one contractor is 90 days, this contractor will be awarded three (3) houses (30 days X 3 = 90 days). The remaining houses will be awarded to the next low bidder (s) in the same manner as the given example. Failure to comply with the completion time as stated will result in assessment of late charges at a rate of \$50.00 for each calendar day (for a maximum of 10 calendar days) over the stated completion time. Late charges will be deducted from vendor's (bidder's) invoice.

Anytime there is a completion time frame overlap of a prior bid award with a current bid opening and award process, the City reserves the right to take into consideration the existing work not yet completed on the prior award in determining the number of houses a contractor is eligible to be awarded under the newly opened bid based on the 90 day completion time requirement. **EX:** Contractor has 45 days worth of work not yet completed under a prior award. The contractor is therefore eligible to receive award of the number of houses he can complete in 45 days based on his current bid. Contractor states he can complete each house in 15 days; therefore, he can be awarded 3 houses under the new bid (45 days worth of work not yet completed ÷ 15 days/house = 3 houses). The contractor is therefore eligible to receive award of the number of houses he can complete in 45 days based on his current bid. Contractor states he can complete each house in 15 days; therefore, he can be awarded 3 houses under the new bid (45 days worth of work not yet completed ÷ 15 days/house = 3 houses). The contractor is therefore eligible to receive award of the number of houses he can complete in 45 days based on his current bid. Contractor states he can complete each house in 15 days; therefore, he can be awarded 3 houses under the new bid (45 days worth of work not yet completed ÷ 15 days/house = 3 houses).

Three (3) failures by a vendor in a twelve (12) month period to complete awarded projects within the stated completion time frame will force the City to determine the vendor to be a non-responsible vendor, and that vendor will not have future bids considered for a period of twelve (12) months.

## **SPECIFICATIONS FOR RESIDENTIAL REHABILITATION PROJECT(S)**

Contractors/Subcontractors on the U.S. Department of Housing and Urban Development's List of Debarred Contractors will not be considered eligible for consideration of award for any contract.

Time extensions will not be given except in extreme situations (i.e. significant rainfall for a lengthy period of time, etc.). Extensions will not be considered for things such as short periods of inclement weather, equipment problems, personal problems, labor problems, etc. In the event the vendor feels he/she has an extreme situation, the vendor must contact the Purchasing Division when the extreme situation occurs, or as soon as possible after the extreme situation occurs if during non-City work hours and prior to the scheduled completion date and provide a justification for the requested extension. If necessary, the Purchasing Division shall contact Community Development Department.

Assuming the delay is justified as an extreme situation, then a revised completion date will be determined by a signed modification to the Purchase Order(s). Unless an extension has been granted in writing by the Purchasing Division, the work is to be completed by the original due date.

For any project award valued at an amount equal to or greater than \$10,000.00, the contractor (bidder) must be licensed as a home builder by the Home Builders Association or have a General Contractor's license with the license number being lower than 18908. License number must appear on the bid form provided, and copy of the current license must be submitted with your bid.

The City will issue purchase order(s) to the successful bidder for the goods and/or services (bid items) that are the subject of the bid. Unless otherwise agreed in a writing that is signed by both parties, the entire agreement between the City and the successful bidder concerning the bid items is comprised of the terms, conditions, specifications and requirements stated in (a) the contemplated purchase order(s), (b) this Invitation to Bid and Specifications and (c) your bid (collectively, the "Contract Requirements"). These writings supersede all former proposals, offers, negotiations, representations or agreements, either written or oral, concerning the provision of vendor's goods and/or services. By acceptance of the City's purchase order(s), the successful vendor agrees to abide by and perform its responsibilities related to the bid items in compliance with the Contract Requirements.

Vendor must have a purchase order from the City of Birmingham stating the specific address for each structure to be rehabilitated before starting any work under this contract. Any work started by the vendor prior to receipt of a purchase order is at the vendor's own risk and expense. The City will not pay for any work unless a purchase order was issued before the work was initiated.

## **SPECIFICATIONS FOR RESIDENTIAL REHABILITATION PROJECT(S)**

Successful bidder(s) shall not assign this contract to any other party without prior written approval of the City of Birmingham. Contract shall not be assigned to an unsuccessful bidder who was rejected because he was not a responsible bidder, or contractor on the U.S. Department of Housing and Urban Development's List of Debarred Contractors.

The contract shall become effective from the date in the Notification of Award letter which will be mailed to the successful vendor.

The City's standard payment terms are net 30 days from acceptance. Exceptions may be allowed for discounted early payments, such as 2% 10 net 30 days. The City will not consider any bids requiring C.O.D. payments.

Any questions concerning these specifications should be addressed to the Purchasing Division, attn: Yolanda Cox, at (205) 254-2878 - Fax (205) 254-2484, between the hours of 8:00 a.m. and 4:00 p.m. Monday through Friday.

Failure to adhere to any or all terms and conditions as set forth in the contract may result in the immediate termination of the contract. Should termination occur, the holder of the contract may be declared a "non-responsible vendor". This declaration may result in the rejection of any future bids submitted by the vendor for a period of time to be determined by the City.

The bidder's attention is directed to the fact that all applicable state laws, municipal ordinances and rules and regulations of the authorities having jurisdiction over the work to be performed shall apply to the Contract throughout, and they will be deemed to be included in the Contract as though written out in full in the Contract.

Bidder (and its employees, agents and any subcontractors) shall not discriminate on the basis of race, color, national origin, or sex, in the performance of the services contemplated hereunder. Failure by the Vendor to carry out these requirements is a material breach of its obligations, which may result in its termination or such other remedy as the City deems appropriate.

Contract award to purchase the service covered in this bid document shall be construed under and governed by the law of the State of Alabama and each party thereto irrevocably agrees to be subject to the jurisdictions of the courts of the State of Alabama.

This amount shall be subtracted from any amount due the contractor by the City for completion of the job. Failure to complete any contract work within the cumulative total of completion days plus any granted extension days, plus up to a maximum of 10 days late penalty time will result in termination of contract, forfeiture of the performance bond and the bidder will be declared a non-responsible bidder and will not be given consideration to receive any future bid awards for a period of twelve (12) months.

It is the City's intent not to award more rehabilitation work to a single contractor than the contractor can complete within a 90 calendar days time frame. However, should the situation arise that there is an insufficient number of responsive, responsible bids received to accomplish this goal, the City reserves the right to award more work to a single contractor than the 90 day completion time would allow. The extended completion time for any such award would be based on the actual completion time stated on the contractors bid form for the additional houses. This action must be mutually acceptable to the City and the contractor.
